

REJU Book Authoring Guide

REJU Book Authoring Guide

You Are Authoring Your Personalized REJU Transformation Book(TM)

REJU is editorial. Your daily reflections, photos, scores, milestones, and Today's Victory entries are the chapters you write. This guide explains how to build an honest, visually compelling book across 20 cohort days - or the full 42-day journey if you want a richer volume.

Before You Begin

- Complete participant registration and save your Participant ID - required on every daily log entry.
- Unlock book authoring with your current cohort event password (changes each cohort).
- Read Kat's Legacy Introduction and establish your Health Benchmark(TM) with photos and journal notes.
- Download cohort materials from the REJU Knowledge Library (`/course-event-info`).

Your Participant ID

Your Participant ID (format: `REJU-YYYYMMDDHHMM-####`) links:

- Your Google Sheets registry record
- Every daily journal submission
- Photo filenames and book chapter assembly
- Verification across the REJU ecosystem

Never submit a daily entry without your Participant ID.

Daily Transformation Log - Field Guide

Identity & Program Day

- Participant ID - from registration (required)
- Full Name - as you want it printed in your book
- Telegram - optional, for cohort support
- Day of Program - 1 through 42 (20-day cohort + optional extension)
- Date - calendar date of the entry

Physical & Skin Observations

- Physical Condition - honest narrative: energy, digestion, sleep, pain, mobility
- Skin Description - texture, tone, clarity, areas you are tracking
- Skin Clarity / Dryness / Inflammation - rate 1-5; trends matter more than single scores

Mind & Compliance

- Energy Level / Mental Clarity / Mood - rate 1-5 daily
- Compliance - Yes or No to the REJU Protocol that day
- Non-Compliance Reason - if No, write why (this is data, not failure)

Photos

Upload daily photos when possible:

- Same angles and lighting when you can
- Front, side, and any focus areas
- Photos anchor visual transformation - memory forgets; your book will not

Today's Victory (11 Positive Things + Reflections)

- List positive observations - however small
- What I Notice Today - body's language, cravings, breakthroughs
- Changes Since Yesterday - compare honestly to prior entry
- End with one Today's Victory - the single best thing about today

Consent

Confirm consent to include your materials in your compiled Transformation Book.

Writing Tips for an Amazing Book

Write in your own voice. Authenticity reads better than polish. This is your legacy, not a performance.

Be consistent. One entry per program day, even when motivation is low - especially then.

Document the rollercoaster. Frustration, doubt, clarity, and joy are all valid chapters. Transformation is not linear.

Avoid scale obsession. Focus on lived experience, photos, energy, skin, and compliance - not a number on a scale.

Use the 20-day cohort sessions as your live anchor; continue through Day 42 if you want a longer, deeper book.

At Day 42, contact REJU personnel to generate your final compiled Personalized REJU Transformation Book.

20 Days vs 42 Days

| Track | Purpose |

| --- | --- |

| 20-Day Cohort | Guided live sessions (10 min/day) + core protocol execution |

| 42-Day Book | Optional extended journaling for a fuller Transformation Book |

You may complete the cohort in 20 days and continue logging through Day 42 for additional chapters, photos, and milestones.

Submission Checklist (Every Day)

- Enter Participant ID
- Set correct Day of Program number
- Complete physical, skin, and mood scores
- Upload at least one photo when possible
- Write Today's Victory
- Submit with book authoring password unlocked

- Confirm success message - you are authoring your book with each entry

Legal & Health Reminder

The REJU Rejuvenation Event(TM), daily journaling, and Transformation Book are educational and participatory wellness tools. They do not replace medical advice. Consult a qualified healthcare professional before beginning fasting, ketogenic, or detoxification protocols.
